I'm **Adler Teh**, I started out with a background in computer science, making scratch projects remaking Undertale with Vainglory characters and taking part in coding competitions. After which going into Uni, I fully committed to the Game Developer lifestyle, and now im here! I have made a few projects and even participated in a few gamejams. I can work solo, and in teams, as I have experience working in both groups and working alone.

Personal Info
DOB: 10th Novemver 2002
